Welcome from the Conference Chairs

Dear Colleagues,

We extend a very warm welcome to all the participants of the 20th annual Canadian Conference on Global Health (CCGH) in Ottawa. This year we have a very exciting program on Global Health in 2013: Are we having an impact?

This theme will in turn:

1) Consider the impact of the Millennium Development Goals and the lessons learned from their implementation
2) Review some of the areas in which the Millennium Development Goals were deficient, and
3) Look ahead to the implementation of the United Nations Post 2015 Development Agenda and Canada’s role.

We look forward to an exciting array of plenary speakers – both Canadian and International.

Our program draws on over 200 abstracts from around the world, which will be discussed in poster, workshop, oral or symposia panel formats. We hope to engage you in discussion on the many topics addressed in the conference. We also look forward to lively interchanges between the groups attending the conference: students of global health; academics; health and allied health workers; government and non-government organizations; and the private sector - all stakeholders of global health today.

Many people have worked very hard to line up this very impressive program. We thank our major sponsors and for the financial support by the Government of Canada, provided through the International Development Research Centre (IDRC), Global Health Research Initiative (GHRI), as well as our other sponsor, the Leacross Foundation. Also, a big thank you to the Conference Planning Committee.

We urge you to participate in the discussions, use the conference to network, meet your colleagues in global health and leave the conference more informed, better connected and inspired to become active in the Global Partnership to create a more equitable, healthier and sustainable world. We welcome your suggestions for improvement, and invite you to get involved in the planning of next year’s conference. We hope you will find the speakers inspirational and benefit from the collegiality of the CCGH.

Welcome to all from CSIHI!

Yours sincerely,

Dr. Duncan Saunders
Co-Chair, Canadian Conference on Global Health
Chair, Department of Public Health Sciences
University of Alberta
duncans@ualberta.ca

Dr. Kofi Bobi Barimah
Co-Chair, Canadian Conference on Global Health
Ag. Dean, Faculty of Public Health & Allied Sciences, Catholic University of Ghana
kbarimah@hotmail.com
Goals and Objectives

Overall Goal
To provide a forum for learning and action about global health and development challenges and opportunities, with special attention to Canada’s role.

The theme “Global Health in 2013: Are We Having an Impact” will specifically be examining the following issues and questions:

- What has been the impact of and lessons learned from the MDGs and other important global health and development initiatives—especially for the poor;
- How do we/should we measure community impact, equity impact and environmental impact?
- Did we measure the right things? What should we have measured?
- Are we evaluating interventions in a way that is sensitive to the poorest of the poor?
- Who should contribute to these assessments?
- What methodology should we be using to measure impact in emergency/crisis situations?
- How do we integrate indigenous knowledge and meaningful indicators?
- What role is Canada playing in making an impact and in defining the metrics?
- What are the implications of donor driven indicators? And how does this influence what and how we measure?
- What capacity/training/good practices need to be developed to respond to these measurement challenges?
- What research needs to be supported to improve our capacity to carry out the proper impact assessments?

Accreditation
This program has been accredited by the College of Family Physicians of Canada and the Ontario chapter for up to 22 Mainpro-M1 credits. Please see the registration desk to receive a certificate of attendance before you depart the Conference.

Hillman Award
The Hillman Award was created in 2001, to honor Dr. Elizabeth and Dr. Donald Hillman’s commitment to students and their participation in international health. One award of $150 is given to the best student poster presentation and the other $150 is given to the best non-student poster presentation at the CCGH.

2013 CSIH Staff

Bob Abma

Grace Zhou

In Memory of Diana Moeser

*The Canadian Society for International Health is deeply saddened by the loss of Diana Moeser. She was a friend of CSIH and chaired the CCGH for many years. She will be sorely missed by the Global Health community.*
Frequently Asked Questions

Q: Where are the sessions?
All conference sessions take place on the 4th floor at the Westin Hotel, located at 11 Colonel By Drive in Ottawa.

Q: What are the session languages?
We will be providing simultaneous interpretation in French and English for all plenary sessions. Infrared receptors will be available free of charge upon request at the PSAV desk located in the ballroom. Identification such as a driver’s license or credit card will be required as a deposit. Receptors must be returned at the end of each plenary session.

Q: Can I attend any sessions?
Session participation will be seated on a first come, first served basis. Once all seats are filled, a “Session Full” sign will be posted. Please do not disturb the session once it is in progress.

Q: Will the program change?
Program changes will either be found posted on the notice board near the registration desk, or outside the session rooms. Announcements will also be made daily for major program changes.

Q: Is there Internet service on site?
There is complimentary wireless Internet available throughout the hotel. A username and password is available at registration.

Q: When should I wear my badge?
Please wear your conference badge at all times on site in order to gain entry to sessions and to pick up meals. Badges are not transferable. Replacement badges will cost an additional $30.00.

Q: Where can I go for help on site?
If you need assistance or have a question during the conference, please feel free to talk to one of the Conference Staff or stop by the Registration Desk.

Q: Will there be a list of participants?
The final conference list of participants will be available after the conference for those who request it by email to ccgh@csih.org.

Q: Where can I find poster and oral abstracts?
The posters are on the fourth floor in the hallway beside the Governor General Ballrooms. The orals are part of the conference program on each of the three days.

Q: Where can I get refreshments and meals?
Morning and afternoon coffee and tea as well as lunch is provided daily. In addition, appetizers will be available at the Sunday opening reception and the Monday poster presentations.
GLOBAL HEALTH IN 2013: ARE WE HAVING AN IMPACT?

Sunday - Dimanche, October 27 octobre, 2013
07:30am-5:30pm - Nunavut Room 4th level - Registration/Inscription

08:30am-10:00am - Provinces/Confederation l Ballroom/Salle de bal Province/Confédération
Opening Plenary/Séance plénière
Global Health in 2013: MDGs – Progress Made and Lessons Learned
(Simultaneous interpretation is provided/Interprétation simultanée)

Welcoming Remarks/Mots de bienvenue:
Janet Hatcher Roberts, Executive Director, Canadian Society for International Health/Directrice générale, Société canadienne de santé internationale

Chair/Animation:
Duncan Saunders, Professor, School of Public Health, University of Alberta; Co-Chair, Canadian Conference on Global Health

MDGs: Progress made and lessons learned in the PAHO region of the WHO
Dr. Jon Kim Andrus, MD, Deputy Director, Pan American Health Organization

Jon Kim Andrus, M.D. is a graduate of Stanford University with a major in Biologic Sciences, a graduate of University California Davis Medical School, a graduate of the University of California San Francisco Family Practice Program at Santa Rosa, and a graduate of the Centers for Diseases Control and Prevention’s Epidemic Intelligence Service and Preventive Medicine Residency. He is a physician and epidemiologist who has worked as a global health expert and researcher in the fields of vaccines, immunization, and primary care in developing countries. He is the author of more than 70 peer-reviewed scientific manuscripts and nine book chapters on global health.

Currently, Dr. Andrus also works on: PAHO’s Non-communicable Disease Task Force, the Technical Advisory Committee of the Global Task Force on Expanded Access to Cancer Care and Control, the Selection Committee of the Hubert Humphrey Fellowship Program, the Global Health Task Force of the Academic Pediatric Association of the United States, and the Advisory Committee of the Department of Global and Community Health of George Mason University.

MDGs: Progress made and lessons learned in Ghana
Dr. Ebenezer Appiah-Debkyira, MD, MPH, Director General Ghana Health Services

Dr. Ebenezer Appiah-Denkyira is currently the Director General of Ghana Health Service. He has served as Director of the Ghana Health Service for the past 15 years in 3 regions and has wide experience in planning and piloting programmes, and initiating systems for monitoring and evaluation. He has also been involved at the national level in the development and implementation of human resources policy, transport policy, health insurance, strategic planning, national ambulance and poverty reduction plans.

Dr. Appiah-Denkyira is a medical officer with a public health degree from Leeds University and an Executive Masters of Leadership and Governance from The Ghana Institute of Management and Public Administration.

A Public Health approach to the MDGs and UN post-2015 Agenda
James Chauvin, President, World Federation of Public Health Associations

James Chauvin is an independent public health advocate and consultant. He was employed at the Canadian Public Health Association (CPHA) between January 1992 and June 2013. As CPHA’s first Director of Policy (2008-2013),
Mr. Chauvin oversaw the formulation of the Association’s policy positions and implementation of its advocacy strategy on public health issues, both in Canada and internationally. He managed CPHA’s advocacy on several issues including tobacco control and alcohol, human and ecosystem health, illegal psychoactive substances, safe injection drug sites, gun control and the banning of the mining and export of asbestos. From 2005 to 2008, he was Director of CPHA’s Global Health Programs. Prior to this, he managed several CPHA international public health initiatives. In April 2012 he assumed the WFPHA Presidency for a two-year term.

Mr. Chauvin holds an MA in medical geography from Queen’s University and an MSc in health services planning and administration from the University of British Columbia.

MDGs: Progress Made and Lessons Learned

Sub Plenary # 1 - Provinces/Confederation I Ballroom/Salle de bal Province/Confédération I
Progress Made and Lessons Learned in Child and Maternal Health

In 2010, Canada announced the Muskoka Initiative. The $1.1 billion of new Canadian funding now supports effective maternal newborn and child health interventions and programs focusing on 20 low income countries. Three years in, much has been accomplished and learned. As we approach the MDG deadline, four of the eight goals have direct ties to MNCH programs. Expectations are a first step. Join us to learn how Canada’s MNCH network is delivering results while remaining accountable.

- Helen Scott, Director at the Canadian Network for Maternal, Newborn and Child Health (CAN-MNCH) will provide an overview of the CAN-MNCH Network and how collectively it is using the Muskoka funding to enact real change for mothers and their children.
- Alison Greig, Senior Technical Advisor, Child Survival at Micronutrient Initiative (MI) will highlight MI’s work using nutrition as a key global health intervention specific to MNCH.
- Marnie Davidson, Global Health Program Manager at CARE Canada will describe how a consortium of INGOs (CARE, Save the Children, Plan and World Vision) are working together to demonstrate collective impact on key areas of maternal newborn and child health.

Sub Plenary # 2 - Governor General II
Ending the TB Epidemic: Raising the profile of TB/HIV Co-infection in a post 2015 world.

"We cannot win the battle against AIDS if we do not also fight TB." - Nelson Mandela

TB is the leading killer of people with HIV/AIDS. One in four deaths among people with HIV is due to TB. If left untreated, TB can kill a person with HIV/AIDS in a matter of weeks. By integrating ART and TB treatments, life can be extended by years. But all too often, TB goes undetected in people living with HIV, and a lack of access to modern diagnostics means that patients die before even receiving their test results. This panel will explore current research and advocacy being done around the integration of TB and HIV programming, as well as examining successful programs currently being implemented by Canadian organizations on the ground.
discussion will center on the way forward, and how to attack HIV and TB together in a post 2015 world.

**Moderator:** Sabina Saini, Deputy Executive Director, RESULTS Canada

**Panelists:**
- Robin Montgomery, Executive Director, ICAD
- Anne-Marie Kamanye, Executive Director, AMREF Canada
- Amrita Daftary, Postdoctoral Fellow, Columbia University

**10:30am - 12:00pm - Governor General III**

**How to Launch Your Career in Global Health**

**Raywat Deonandan**
Dr. Raywat Deonandan is an Epidemiologist, global health researcher, award-winning author and journalist, and an Assistant Professor in the Faculty of Health Sciences at the University of Ottawa.

**Alexandre Lefebvre**
Alex is a medical student at the University of Montreal and a Youth Commissioner of the University of Oslo - The Lancet Commission on Global Governance for Health.

**Shanna Sunley**
Shanna holds dual Bachelor degrees in Anthropology and Health Sciences from the University of Calgary, and a Master of Public Health from the London School of Hygiene and Tropical Medicine, where she studied as a Commonwealth Scholar. She is currently a member of the Steering Committee for the Canadian Society for International Health's MentorNet program.

**Geneviève Bois**
Geneviève Bois is a final year medical student at the Université de Montréal who has been involved in Global Health, has lived abroad and travelled extensively from a young age. She recently spent one-year with the Copenhagen School of Global Health, working with partners in Gabon and around the world. She is a student representative on the CSIH Board.

**12:00pm - 1:30pm - Lunch - Provinces/Confederation | Ballroom/Salle de bal Province/Confédération | Foyer**
New Brunswick Room -
The Canadian Red Cross will be presenting their documentary titled “Mother & Child Health Program, Honduras”

**12:15pm - 1:30pm - Governor General I**

Canadian Coalition for Global Health Research (CCGHR) Annual General Meeting
### Symposia # 1 - Provinces/Confederation I Ballroom/Salle de bal Province/Confédération I

**Lessons Learned: Developing a Sustainable Research Community in Africa**

There will be 3 presentations followed by small group discussions on why “microresearch” may be needed, what it has done and an evaluation of this methodology. The second part of the session will be group discussions on how can to make health research sustainable and what does it take to teach/do research in Africa?

- **Noni MacDonald**, MD, MSc, FRCPC, Professor of Pediatrics, Canadian Center for Vaccinology (CCfV), Dalhousie University
- **Robert Bortolussi**, MD, FRCPC, Professor of Pediatrics, Canadian Center for Vaccinology (CCfV), Dalhousie University
- **Mrs Sanela Moraca**, MSc, Canadian Center for Vaccinology (CCfV), Dalhousie University

### Symposia # 2 - Governor General I

**Improving Equitable Access to Life Saving Interventions for Children Under the Age of Five Years**

The session will be co moderated by experts from Save the Children and WHO with panelists from MSH, Save the Children and Canadian Red Cross. Participants will have an opportunity to learn about the impact of CCM in reducing child mortality and improving equity in access to essential health care for children under-five.

- **Overview of integrated Community Case Management**
  - **David Marsh**, Senior Advisor for Child Health and Nutrition, and Global Team Leader for Community Case Management, Save the Children
- **Canada’s investment in integrated Community Case Management**
  - **David Stevenson**, Director General of the Global Initiatives Directorate, Multilateral and Global Programs Branch, Department of Foreign Affairs, Trade and Development Canada
- **Integrated Community Case Management and equity**
  - **Yolanda Barbera**, Senior Technical Advisor, Child Health, International Rescue Committee,
- **Improving the quality of integrated Community Case Management programming**
  - **Janani Vijayaraghavan**, Technical Advisor, Child Health and Nutrition, Save the Children Canada
- **Integrated Community Case Management - creating demand and an enabling environment for implementation**
  - **Helen Counihan**, Senior Public Health Specialist – Community Systems, Malaria Consortium
- **Lessons in improving equitable access**
  - **Salim Sohani**, Senior Health Advisor, Canadian Red Cross
- **Integrated Community Case Management program costing: results from a multi-country analysis**
  - **Zina Jarrah**, Senior Technical Officer, Healthcare Financing Unit, Center for Health Services, Management Sciences for Health
- **Engaging policy makers at Ministries of Health to strengthen implementation to ensure sustainability**
  - **Franco Pagnoni**, Team Leader, Rapid Access Expansion (RAcE) 2015, Integrated Community Case Management Programme, WHO/Global Malaria Program
Symposia # 3 - Governor General II

**Impact of training Paediatric Nurses in Ghana**

Strengthening of human resources for health through the development of a paediatric nursing workforce is crucial to improving child survival. Ghana has seen improvements in Under 5 Child Mortality from 120 to 69 per 1,000 births since 1990. In order to further catalyze progress towards MDG 4: reduce child mortality; Ghana has identified a need for 1500 paediatric nurses to be trained over the next 10-15 years.

- **Stan Zlotkin**, CM, MD, PhD, FRCPC, Chief, Global Child Health, Senior Scientist, Research Institute, The Hospital for Sick Children, Departments of Paediatrics, Nutritional Sciences and Public Health, University of Toronto, Toronto ON
- **Pam Hubley**, Centre for Nursing, Hospital for Sick Children, Toronto, ON
- **Ebenezer Appiah-Denklyra**, MD, MPH, Director General, Ghana Health Services
- **Ernestina Donkor**, School of Nursing, University of Ghana
- **Bamenla Goka**, Department of Child Health, University of Ghana,
- **Bonnie Fleming-Carroll**, Centre for Nursing, Hospital for Sick Children, Toronto, ON
- **Bonnie Stevens**, Centre for Nursing, Hospital for Sick Children, Toronto, ON

Symposia # 4 - Governor General III

**Historia natural de una colaboración de investigación**

Para revisar las lecciones aprendidas de una colaboración de investigación de 12 años, destacando las funciones y responsabilidades de varias personas claves. La colaboración empezó inicialmente con un proyecto de investigación académica en 2002, dirigido por la Dra. Gyorkos y el Dr. Casapía. El enfoque del programa de investigación era las Enfermedades Tropicales Desatendidas y específicamente enfermedades causadas por parásitos. Su investigación ha contribuido a avanzar el conocimiento científico sobre la prevención y el control de las enfermedades por bichos a nivel mundial.

- **Dra. Theresa W. Gyorkos**, Profesora, McGill University, Colaboradora de investigación (Canadá)
- **Dr. Martín Casapía**, Profesor y Director General, Asociación Civil Selva Amazónica, Colaborador de investigación (Perú)
- **Mg. Brittany Blouin**, Coordinadora de investigación (Canadá)
- **Lic. Obst. Lidsky Pezo**, Coordinadora de investigación (Perú)
- **Mg. Serene Joseph**, Candidata a doctorado (Canadá) y Directora del proyecto
- **Dr. Hugo Rodríguez**, Director, Dirección Regional de Salud Loreto, Persona clave para tomar decisiones e implementar políticas (Perú)

Oral Session # 1 - Nova Scotia/Newfoundland Rooms

**MDGs - Progress Made and Lessons Learned: Progress Towards the MDGs**

**Chair – Kofi Barrimah**, Faculty of Public Health and Allied Sciences, Catholic University College of Ghana

- Benin: People living with AIDS (PLWA) bringing psychosocial support to their peer
- Bernard Gnahnoui David, Chief of Party, Global Fund Project on HIV/AIDS/HSS-Rd9, Plan Benin The role of access to water and basic sanitation on the health of people in communities in Ghana
  - Henry Addo Ofoso, Catholic University College of Ghana, Fiapre
- Empowered adolescents girls and boys making informed choices, when it comes to their sexuality and reproduction in Punjab province in Pakistan
  - Irfan Ahmad, Senior Health Advisor, Plan Pakistan, Islamabad
- Evaluation of Ghana's National Health Insurance Scheme in the context of MDGs 4 & 5
  - Dr. Kofi Barrimah, Faculty of Public Health and Allied Sciences, Catholic University College of Ghana (see over)
- Le financement international de la lutte contre le paludisme : Enjeux et perspectives juridiques
  Carole Wurtz, Postgraduate, International Law, Université Montesquieu Bordeaux IV, Bordeaux

Oral Session # 2 – New Brunswick Room
**MDGs - Progress Made and Lessons Learned: Equity and Development**

Chair: Colleen Cash, Co-Chair, CSIH

- Improving vaccine acceptance and coverage in ‘hard to reach’ and resistant communities: lessons learnt from Pakistan
  Salim Sohani, Canadian Red Cross Society, Ottawa ON
- Inequities, Status and Signaling in Maternal Health Care Use in Punjab, Pakistan
  Zubia Mumtaz, University of Alberta, Edmonton AB
- Reducing morbidity and mortality against vaccine-preventable diseases and addressing inequities in vaccine access in Latin America and the Caribbean
  Hannah Kurtis, Specialist, Comprehensive Family Immunization Unit, Family, Gender and Life Course Department, PAHO/WHO
- Benin : Renforcement du pouvoir économique des Personnes Vivant avec le VIH (PVVIH) et des Orphelins et Enfants Vulnérables (OEV)
  Bernard Gnahoui David, Chief of Party, Global Fund Project on HIV/AIDS/HSS-Rd9, Plan Benin

Oral Session # 3 - Alberta Room
**MDGs - Progress Made and Lessons Learned: MNCH**

Chair: Tanya Salewski, Program Manager, Aga Khan Foundation Canada

- Barriers to Access and Utilization of Maternal and Infant Health Services in Migori County, Kenya
- Maternal Referral: A contributor to adverse pregnancy outcomes
  Joyce Cheptum, Dedan Kimathi University of Technology, Nigeria
- Effectiveness of Community based Intervention on Infant's Feeding and Caring Practices among Mothers in Three East Hebron Villages
  Carmen Tse, Regional Health Technical Specialist, World Vision Canada
Gairdner Foundation Lecture/Conférence de la Foundation Gairdner
(Simultaneous interpretation is provided/Interprétation simultanée)

Dr. King Holmes

STI Research: Major Progress, Current Challenges and Future Opportunities

Dr. King Holmes, Department of Global Health and Center for AIDS & STD, University of Washington, Seattle, Washington, USA

"For global scientific contributions to the field of sexually transmitted disease and their effective treatment and prevention"

Dr. King Holmes is the William H. Foege Chair of Global Health at the University of Washington, a position he has held since 2006. He is also founder and director of the University of Washington Center for AIDS and STD, a World Health Organization Collaborating Center for AIDS and STD. Currently Dr. Holmes is also the head of Infectious Diseases at Harborview Medical Center. Dr. Holmes completed his undergraduate degree at Harvard College in 1959, his medical degree at Cornell University Medical College in 1963 and received his Ph.D. in Microbiology from the University of Hawaii in 1967. Dr. Holmes has been a member of the University of Washington faculty since 1969, holding educational leadership positions in areas such as medicine, microbiology, epidemiology and global health.

He is the principal investigator for the International Training & Education Center on Health (I-TECH), a collaborative program between the University of Washington and the University of California, one of the largest HIV/AIDS training programs in the world. Dr. Holmes also directs the University of Washington/Fred Hutchinson Cancer Research Center’s Center for AIDS Research. He has participated in research on STDs for over 40 years in Africa, Latin America, Southeast Asia, and the Western Pacific. He has authored over 550 peer-reviewed publications and edited 30 books, monographs, and journal supplements.

4:00pm - 5:30pm - Provinces/Confederation I Ballroom/Salle de bal Province/Confédération I

Global Networking Café

This Global Networking Café is aimed at continuing the discussions around the key issues of our work in a more intimate and interactive way. We will share information; lessons learned and discover alternative approaches to collaboration.

We invite you to a dynamic and interactive discussion designed to explore and highlight your ideas and vision regarding collaboration in global health.

We want to know what you think!

- What are the key issues that should be included in a Post-2015 Development Agenda?
- How can we collaborate to further global health?
- How can a global health network contribute to a Post-2015 Development Agenda?

Knowing who is working where will strengthen our collective impact in global health.
4:00pm - 5:30pm - Governor General III

Opportunities in Global Health/Possibilités en santé internationale

This session will showcase Canadian-based organizations who recruit for global internships and postings or who provide funding for researchers and projects. Cet atelier présentera des organismes établis au Canada qui offrent des postes et des stages en santé internationale et un financement aux chercheurs et aux projets.

Participants:

Aga Khan Foundation
CANADEM
Canadian Society for International Health
Canadian Coalition for Global Health Research (CCGHR)
Emerging Health Leaders
Global Health Research Initiative (GHRI)
Grand Challenges Canada
International Development Research Centre (IDRC)
Médecins Sans Frontières (MSF)
MentorNet
Micronutrient Initiative
Red Cross

5:30pm - 7:00pm - Governor General I, II

Welcome Reception/Réception d’accueil

6:00pm

A Farewell for Janet Hatcher Roberts, retiring Executive Director of CSIH

The Board of Directors of CSIH invites conference participants to attend the opening reception of the conference where we will take the opportunity to celebrate the significant contribution of Janet Hatcher Roberts to the Canadian Society for International Health and the field of global health. Jan will be leaving the Society after 15 years of outstanding commitment and dedication as the Society’s executive director. Please join us in sharing memories and well wishes as Jan embarks on the next chapter in her career.
GLOBAL HEALTH IN 2013: ARE WE HAVING AN IMPACT?

Monday - Lundi, October 28, 2013

07:30am-5:00pm - Nunavut Room - 4th level   Registration/Inscription

8:30am – 10:00am - Provinces/Confederation I Ballroom/Salle de bal Province/Confédération I

Are We Having an Impact? The Remaining Challenges
(Simultaneous interpretation is provided/Interprétation simultanée)

Chair/Animateur : Dr. Kofi Barrimah, Faculty of Public Health & Allied Sciences, Catholic University College of Ghana

Gita Sen, Professor, Centre for Public Policy at the Indian Institute of Management, Bangalore India

Gita Sen is a Professor at the Centre for Public Policy, at the Indian Institute of Management in Bangalore, India as well as Adjunct Professor of Global Health and Population at the Harvard School of Public Health, Harvard University. She has been Professor of Public Policy at the Indian Institute of Management in Bangalore since 1993 and Adjunct Professor at the Harvard School of Public Health since 2002.

She has served on a number of boards and committees including the Board of UNRISD and IDS, Sussex and is currently, inter alia, a member of the Global Advisory Board of the Open Society Foundations, the UNFPA’s High Level Task Force for ICPD, the High Level Expert Group of India’s Planning Commission, the Mission Steering Group of India’s National Rural Health Mission, and the Board of the National Health Systems Resource Centre. She is the recipient of a number of awards and honours including the Volvo Environment Prize, and honorary doctorates from the University of East Anglia, the Karolinska Institute (Stockholm), the Open University (UK) and the University of Sussex, as well as a Fulbright Fellowship. She has delivered a number of endowed lectures nationally and internationally, and has published extensively on gender and development, health equity, and population policy. Prof. Dr. Sen holds an MA in Economics from the University of Delhi, India, and a PhD in Economics from Stanford University in the United States.

Theo Vos, Professor, Global Health, Institute for Health Metrics and Evaluation (IHME), University of Washington, Seattle, Washington

Theo Vos is Professor of Global Health at the Institute for Health Metrics and Evaluation (IHME) at the University of Washington. He is a key member of the Global Burden of Disease (GBD) research team, and is working to improve the GBD methods, update sources of data, and develop partnerships with countries to produce GBD estimates that are most relevant to policy decision-making. He is also focused on linking the epidemiological estimates from GBD to information on health expenditure and cost effectiveness.

Prior to joining IHME, Dr. Vos was Director of the Centre for Burden of Disease and Cost-Effectiveness at the School of Population Health of the University of Queensland. While there, he led burden of disease studies in Australia and contributed to studies in Malaysia, South Africa, Singapore, Thailand, Vietnam, and Zimbabwe.

Ronald Labonté, Canada Research Chair, Globalization and Health Equity, and Canada Research Chair, Globalization and Health Equity, Institute of Population Health, University of Ottawa, Ottawa ON

Ronald Labonté is a Professor in the Faculty of Medicine, at the University of Ottawa, and Adjunct Professor in the Department of Community Health and Epidemiology at the University of Saskatchewan. Prior to his appointment in 2004 at the University of Ottawa, he was founding Director of the Saskatchewan Population Health and Evaluation Research Unit (SPHERU), a bi-university interdisciplinary research organization that was committed to “engaged research” on population health determinants at local, national and global levels. He is a founding member of the Canadian Coalition for Global Health Research, and a past board member of provincial and national public health and international health associations in Canada.
Neil Andersson, MD, MPhil, MSc, Director, CIET Canada

Neil Andersson is a physician, epidemiologist and traditional healer in the Sangoma tradition of southern Africa. He is the founding executive director of the international CIET group of NGOs and research institutes. Over the last 25 years, Dr. Andersson worked in Aboriginal health research, supporting indigenous communities and researchers in Canada and abroad, as they take on pressing health and development concerns, such as safe motherhood, youth resilience, parenting, gender violence, and HIV/AIDS. In doing this, he has consistently worked to create research and planning capacities in indigenous communities. He also has a longstanding commitment to cultural safety and the recovery and preservation of indigenous cultural heritage.

Sub Plenary # 3 - Provinces/Confederation l Ballroom/Salle de bal Province/Confédération l
Gendering the Interconnections of Population Health, Health Systems Planning, and Human Development.

This sub-plenary is aimed to address structural issues underlying women’s health outcomes on a global scale. Intersectional feminist approaches will be used to explore current policies surrounding gender equity, labour practices, and health. In differing ways, the speakers will demonstrate the theoretical and practical benefits of using a feminist political economy framework to link issues of population health, health systems planning, and human development.

Chair: Taq Bhandal, Graduate Program in Health Policy and Equity, York University, Toronto

- A Health Systems Example: Intersection of women’s rights, labour migration policies, and the health professions
  Dr. Salimah Valiani, Ontario Nurses’ Association, Toronto
- Response from Gita Sen, India Institute of Management, Bangalore India and Facilitated Discussion

Sub Plenary # 4 - Governor General l
Hepatitis C: Incorporating Strategies from the HIV/AIDS/STI/TB Community

HIV is 3½ times more prevalent than HIV in Canada. Approximately 242,500 people are infected, with 1 in 5 persons unaware of their infection and are undiagnosed.

What is being done to curb this silent killer?

This sub-plenary aims to bring attention to HCV in a global, national, and local context and to highlight whether existing HIV/AIDS, TB, and STI programs and funding models can prevent and treat HCV.

Chair: Dr. Anne Fanning, CM, MD, FRCP (C)

- Multi-sectoral approaches towards health and health mobility
  Dr. Nenette Motus, PhD, Senior Migration Health Policy Advisor & Global Health Operations Coordinator, International Organization for Migration (IOM), Geneva, Switzerland

### Sub Plenary # 5 - Governor General II
#### The Global Mental Health Agenda: Challenges and Current Debates

This symposium will bring together a group of scholars and practitioners to explore the main challenges and current debates involved in the design, development and implementation of the global mental health agenda. Speakers will variously present their views, giving a comprehensive overview of the epistemological tensions between the global and the local and the need to reconfigure the global health domain in order to advance the basic goals in global mental health.

**Chair:** Duncan Pederson, Douglas Institute – University of McGill, Montreal

- **Kami Kandola**, President, Institute for Circumpolar Health Research, Yellowknife
- **Arlene MacDougal**, MD, Global Psychiatry, Dalhousie University, Halifax
- **Jaswant Guzder**, Institute of Community and Family Psychiatry, JGH
- **Laurence Kirmayer**, Division of Social and Transcultural Psychiatry, University of McGill, Montreal

### Sub Plenary # 6 - Governor General III
#### Can We Have an Impact Without Inclusion? Disability, The Missing MDG

One billion people worldwide have a disability, that’s 1 in 8. Yet disability is excluded from the MDGs, and is often viewed as a marginal niche issue affecting only a few unfortunate individuals. In contrast, the 2011 WHO/World Bank World Report on Disability affirms disability is part of the human condition. We all experience disability; inclusion is in everyone’s interest.

- **Stephanie Nixon**, Director, International Centre for Disability and Rehabilitation (ICDR), Toronto
- **Phillimon Simwaba**, Executive Director of the Disability HIV & AIDS Trust (DHAT), Zambia

Canadian Society for International Health Annual General Meeting

This lunchtime session will be the annual general meeting for the Canadian Society for International Health. All are welcome to attend. Only CSIH members may vote.

The Lifetime Achievement Award will be presented at the beginning of the meeting.

Winner/gagnante 2013
Shelley-Rose Hyppolite, Medical Advisor, Agence de la santé et des services sociaux de la Capitale-Nationale/Direction de santé publique, and Assistant Professor, Faculty of Medicine, Université Laval

Shelley-Rose Hyppolite est médecine spécialiste en santé publique et médecine préventive. Professeure à la Faculté de Médecine de l’Université Laval à Québec et médecin conseil à la Direction régionale de santé publique de la Capitale Nationale, ses activités se situent sur le terrain des inégalités sociales de santé. Qu’il soit question de pauvreté au Québec ou de problèmes relatifs à des pays à bas et moyen revenu, ses engagements professionnels se mêlent étroitement à des valeurs personnelles. À ce sujet, elle est conduite dans son itinéraire par des soucis de justice sociale, par une lutte contre des rapports de pouvoir inégaux, par le besoin de reconnaissance des moins bien lotis et de leurs problèmes, par le développement communautaire et la participation des communautés dans la résolution des problèmes que ces communautés rencontrent.

Impliquée dans des activités et des interventions de santé internationale depuis 20 ans, elle s’est engagée dans plusieurs programmes et projet de développement et d’urgence, en Afrique de l’Ouest comme en Haïti. À ce titre, elle œuvre maintenant au sein de Médecin du Monde Canada dont elle a été l’expatriée longtemps, et, où elle agit souvent comme coordonnatrice de projet. Impliquée encore dans le milieu universitaire, elle tente de conduire les étudiants vers des chemins identiques, leur apportant des contenus relatifs à la santé mondiale et la santé internationale, et leur donnant le goût de s’impliquer dans des missions, à la rencontre de ceux et celles dont les conditions d’existence sont précaires et favorables aux infortunes et aux malheurs.

D’autres éléments viennent bien sûr s’ajouter à ce portait d’engagement continu porté par des convictions profondes. Mais c’est là déjà bien suffisant pour reconnaître le mérite d’une femme et d’une professionnelle engagée, à qui l’on décerne le prix aujourd’hui.

1:30pm – 3:00pm
Concurrent Sessions/Séances simultanées

Oral Session # 4 - Governor General II
The Remaining challenges: Training for Global Health in Canada

Chair: Colleen Davison, Assistant Professor and Research Scientist, Department of Public Health Sciences, Department of Emergency Medicine, Kingston General Hospital Research Centre, Queens University

- Producing the global health doctor: Discourses on international medical electives

- Nazmul Alam, University of Montreal, Montreal
- Matthew Bromwich, Children's Hospital of Eastern Ontario, Ottawa
- Marion Roche, Micronutrient Initiative
- Jean-Simon Diallo, Ottawa Hospital Research Institute, Ottawa
Symposia # 8 - Governor General I

The Professionalization of Global Health

The participation of individuals and institutions in global health activities has rarely been measured to any standard of practice or constructively criticized by governing professional bodies. There are no validated benchmarks for participation in such activities. As the influence of donor nations in resource limited settings increases with greater presence in the field, we must ensure certain professional benchmarks are met not only to improve program efficacy, but more importantly, not to increase the burden in the already resource limited environment. This session explores some of the elements involved at the professionalization of global health. These include general and specialty specific competencies, ethical standards, reporting and certification.

Chair: Dan Deckelbaum, Director, McGill University Global Health Programs, Montreal
- Irfan Kherani, National Officer for Global Health Education, Canadian Federation of Medical Students, Edmonton
- Shawna O’Hearn: Global Health Education: the challenges and strengths of an interprofessional lens
- Videsh Kapoor/Irfan Kherani: Developing Global Health Core Competencies for Integration into MD Undergraduate Programs

Symposia # 9 - Provinces/Confederation I Ballroom/Salle de bal Province/Confédération I
Increasing Accountability for Health and Health Equity in the Post-2015 Sustainable Development Agenda

The overall goal of the panel is to engage in a discussion about specific approaches to improve accountability for health, health equity and sustainable development post-2015. We will:
- Discuss integrated health, social and environmental impact assessments (ESHIAs) and examine aspects of their successful development, implementation and regulation.
- Discuss strategic (cross-sector, cross-project) health impact assessment and its utility for promoting accountability for health in the in post-2015 sustainable development agenda including in the context of the health in all policies movement.

We will draw from expertise in the history of impact assessments, the development and practice of impact assessment methodologies including ESHIA, and the development and use of strategic impact assessment by national governments and supporting UN agencies.

Chair: Colleen Davison, Assistant Professor and Research Scientist, Department of Public Health Sciences, Department of Emergency Medicine, Kingston General Hospital Research Centre, Queens University
- Dr. Craig Janes, Professor of Global Health, Simon Fraser University
- Meghan Wagler, Faculty of Health Sciences, Simon Fraser University.
GLOBAL HEALTH IN 2013: ARE WE HAVING AN IMPACT?

Symposia # 10 - Governor General I
Inequities in the Utilization of Maternal Health Care in Low and Middle Income Countries

Monitoring inequities in the utilization of antenatal, skill attendance at delivery, and postpartum care in low and middle-income countries (LMICs) is important to allocate resources efficiently and to help the countries achieve MDG5 targets. Objective of this symposium is to present in-depth discussion on inequality in the utilization of maternal health services, how to measure them and its impact on MDG5 targets in the context of LMICs.

- Nazmul Alam, Postdoctoral fellow/Associate Scientist, Département de médecine sociale et préventive, Université de Montréal, Montréal QC
- Pierre Fournier, Département de médecine sociale et préventive, Université de Montréal, Montréal QC

Symposia # 11 - Governor General II
Testing a ‘Continuum of Care’ Model for Food Security in Rural Rwanda

What are the factors that will allow food insecure individuals and families in three districts in Rwanda to best move on a ‘continuum of care’ from patient to agricultural producer, and enjoy corresponding benefits in health, food security and socio-economic status? Project objectives will align with the Government of Rwanda’s Joint Action Plan To fight Malnutrition (Dec. 2011) including strengthened identification and management of under-nutrition; elimination of micronutrient deficiencies; multi-sectorial district plans to eliminate malnutrition; regular monitoring and evaluation of nutrition activities at all levels; as well as IMB’s broad objective to improve socio-economic status of IMB districts through a comprehensive food security intervention.

Due to the close relationship between IMB and the Rwandan government and strong central government oversight across districts, there is excellent potential for ongoing findings to inform implementation of related initiatives in other areas of the country.

- Mark Brender, Director, Partners in Health Canada
- Dr. Cate Dewey, Chair of the Department of Population Medicine, University of Guelph; Professor of Health Management and Ecosystem Approaches to Health

Symposia # 12 - Governor General III
The Social Dimensions of Maternal and Child Health: Engaging Men, Families and Communities

This session will explore the social dimensions of maternal and child health. In particular, presenters will provide evidence supporting the importance of engaging men, families and communities, and practical examples of how these social actors have been engaged in maternal and child health in different parts of the world.

The overall objective of the proposed symposia is to discuss the importance and explore examples of addressing the social dimensions of maternal and child health in order to reach all people in need and improve health equity. The target groups include NGOs working on maternal and child health, donors, academic community, and medical/health professionals.

Chair: Janet Hatcher Roberts, Executive Director, CSIH

- Engaging men and mothers in-law in maternal and child health in rural India
  Ms. Phaeba Abraham, Programme Officer, HealthBridge Foundation of Canada
- Engaging men and improving health of women and children in the Americas
  Dr. Salim Sohani, Senior Health Advisor, International Operations, Canadian Red Cross
Global Health in 2013: Are We Having an Impact?

- Community-based groups to engage mothers, fathers and mothers-in-law in maternal and child health in India
  Mr. Ramesh Babu, Director-Programmes, Evangelical Fellowship of India Commission on Relief
- The importance of engaging families and communities in interventions to prevent maternal mortality; an example from Tanzania
  Dr. Gail Webber, Assistant Professor of Family Medicine, University of Ottawa

Symposia #13 - Nova Scotia/Newfoundland Rooms

Global Health Certificates: Mapping the Hidden Curriculum

Despite the pressing need for improved global health training, many Canadian universities still lack innovative curricula that would allow for students to explore the social determinants of health through a global lens. There is a growing interest within the student community to address this gap in curriculum. As of 2010, two of every three medical graduates completed a global health elective during their studies (Huish, 2012). Many students are creating their own opportunities outside of the formal curriculum. These opportunities have not been developed in a structured framework that incorporates competencies and focused career pathways.

As leaders in education, Dalhousie University’s Global Health Office launched the extra-curricular Advocates in Global Health Program that aims to provide students with formal recognition for their global health initiatives. The objective of this certificate program is to build knowledge and skills in two intersecting areas: Advocacy and Global Health. Upon completion of the AGHP, students will be versed in the global burden of disease, health implications of globalization, social determinants of health, ethics of global health and issues related to working in low-resource settings, and will have developed the capacity to become leaders in global health.

- Shawna O’Hearn, Director, Global Health Office, Dalhousie University, Halifax NS
- Erika Burger, PhD Candidate, Dalhousie University, Dalhousie University, Halifax NS
- Brie Rehbein, Program Manager, Global Health Office, Dalhousie University, Halifax NS

Oral session #7 - Alberta Room

The Remaining Challenges: Training, Service Delivery and Health Human Resources

Chair: Stephanie Nixon, Assistant Professor, University of Toronto, Toronto ON

- A new human resource document audit tool for public sector nurse-midwives in Bangladesh
  Dr. Lubana Ahmed, Human Resources Development and Management Advisor, Cowater International (Human Resources for Health in Bangladesh Project)
- Ethnography as a tool for evaluating and monitoring a training program for Community Health Workers in Ecuador
  Alison Doucet, MD, Department of Family Medicine, McGill University, Montreal QC
- Engaging Rural Guatemalans in Healthy Life Practices: Lessons in Training Community Health Workers
  Mohammad Umair Malik, Resident Physician, University Hospitals/Case Medical Center, Cleveland OH
- Evaluating innovative health programs: Credible and feasible performance measurement in low- and middle-income countries
  Raman Sohal, Li Ka Shing Knowledge Institute, St. Michael’s Hospital, Toronto ON

The Post 2015 Development Agenda

(Simultaneous interpretation is provided/Interprétation simultanée)

We hope that by looking at the MDGs from different perspectives the conference participants will obtain a rich understanding of what has occurred with the implementation of the MDGs—the successes, the less-successful results, and lessons for the implementation of the UN Post-2015 agenda.

Chair/Animateur : Donald Sutherland, Global Public Health Consultant

Eric Goosby, The U.S. President’s Emergency Plan for AIDS Relief (PEPAR)

Eric Goosby serves as the United States Global AIDS Coordinator, leading all U.S. Government international HIV/AIDS efforts. In this role, Ambassador Goosby oversees implementation of the U.S. President’s Emergency Plan for AIDS Relief (PEPFAR), as well as U.S. Government engagement with the Global Fund to Fight AIDS, Tuberculosis and Malaria. Ambassador Goosby also leads the new Office of Global Health Diplomacy at the U.S. Department of State. The office guides diplomatic efforts to advance the United States’ global health mission to improve and save lives and foster sustainability through a shared global responsibility. Ambassador Goosby has played a key role in the development and implementation of HIV/AIDS national treatment scale-up plans in South Africa, Rwanda, China, and Ukraine. He focuses his expertise on the scale-up of sustainable HIV/AIDS treatment capacity, including the delivery of HIV antiretroviral drugs, within existing healthcare systems. Ambassador Goosby has extensive international experience in the development of treatment guidelines for use of antiretroviral therapies, clinical mentoring and training of health professionals, and the design and implementation of local models of care for HIV/AIDS. He has worked closely with international partners on the development of successful HIV/AIDS treatment and treatment-based prevention strategies for high-risk populations.

Ambassador Goosby has over 25 years of experience with HIV/AIDS, ranging from his early years treating patients at San Francisco General Hospital when AIDS first emerged, to engagement at the highest level of policy leadership. As the first Director of the Ryan White Care Act at the U.S. Department of Health and Human Services, Ambassador Goosby helped develop HIV/AIDS delivery systems in the United States. Ambassador Goosby has longstanding working relationships with leading multilateral organizations, including UNAIDS, the Global Fund and the World Health Organization.

Kumanan Rasanathan, UNICEF, member of the task team managing the global thematic consultation on health for post-2015

Dr. Kumanan Rasanathan works at UNICEF Headquarters in New York, mainly on district health system strengthening to improve the delivery of maternal and child health services in Asia and sub-Saharan Africa. He is also the focal point at UNICEF for health in the post-2015 development agenda, and a member of the task team managing the global thematic consultation on health for post-2015. Kumanan is a public health physician from New Zealand, with degrees in medicine, public health and politics. Prior to joining UNICEF in 2012, he worked at WHO in Geneva on primary health care and social determinants of health, as a principal author of the World Health Report 2008 on primary health care, and as a member of the WHO Secretariat of the Commission on Social Determinants of Health and the World Conference on
Social Determinants of Health. Prior to joining WHO in 2007, Kumanan worked in a range of roles in New Zealand, Australia, China and the United Kingdom, as a clinician, researcher and policy-maker in clinical practice, vaccine clinical trials, primary health care, national health policy and reducing inequities in maternal and child health.

**Ballroom/Salle de bal Province/Confédération**  
**Maternal, Newborn, and Child Health, Post-2015**  
*(Simultaneous interpretation is provided/Interprétation simultanée)*

The latest WHO and UNICEF draft report on Health in the Post-2015 Development Agenda clearly indicates that maternal and child health will remain foci for development efforts after 2015. In addition to introducing new thematic areas, it identifies goals related to the current Millennium Development Goals (MDGs) on maternal, newborn, and child health (MNCH). These include ending preventable child and maternal deaths and morbidity, and fully immunizing children. Health systems approaches are instrumental in addressing post-2015 MNCH goals.

A Global Governance for Health Approach to Address the Health Agenda in the Post 2015 Agenda

The panel discussion will be aimed at exploring and discussing health in the post MDG agenda through a Global governance for health lens. Target groups include all people with an interest in global health and particularly post 2015 students, practitioners, academics and policy makers. Over the last two years the youth commission on global governance for health has been exploring how health can be taken better into account in multiple arenas of global governance in order to protect and promote health of the world’s populations.

Symposia # 15 – Governor General I

Setting a 5-year Agenda for the International Society for Equity in Health

Present information on the historical role as well as current activities and status of the International Society for Equity in Health (ISEqH) and to facilitate a group conversation to support development of a 5-year strategy and goals for the ISEqH.

- Alexandra Bambas-Nolen, Director, Center to Eliminate Health Disparities at the University of Texas Medical Branch, Galveston, Texas
- Daniel Maceira, Area de Economía, Centro de Estudios de Estado y Sociedad (CEDES), Buenos Aires, Argentina
- Barbara Krimgold, Institute for Alternative Futures Roy Carr-Hill, University of York, Toronto ON
GLOBAL HEALTH IN 2013: ARE WE HAVING AN IMPACT?

Symposia # 16 - Governor General II

As we look beyond the MDGs, the Canadian Coalition for Global Health Research (CCGHR) is leading a dialogue process as an effort (among others) to ensure that health equity and health systems strengthening remain priorities on the post-2015 development agenda. From May-October 2013, the CCGHR’s Policy Influence Program invites dialogue among academic, civil society, corporate sector, and other stakeholders representing the global health research community. Our aim is to gather diverse perspectives on the role of research in a Canadian vision for global health, and in so doing, build on the work of the Canadian Academy for Health Sciences• Expert Panel on Canada’s Strategic Role in Global Health.

- Katrina Plamondon, Co-Chair, Policy Influence Program (CCGHR) & Nursing Research Facilitator (IH), Interior Health & Canadian Coalition for Global Health Research, Kelowna BC
- Vic Neufeld, Canadian Coalition for Global Health Research
- Craig Janes, Simon Fraser University & Canadian Coalition for Global Health Research
- Donald Cole, University of Toronto & Canadian Coalition for Global Health Research
- Jennifer Hatfield, University of Calgary & Canadian Coalition for Global Health Research
- Krista Sider, University of Toronto
- Dave Heidebrecht, Canadian Coalition for Global Health Research

Symposia # 17 - Governor General III
Using TED Talks to Teach Social Determinants of Health - Maximize the Message with a Modern Medium

Addressing and understanding the social determinants of health (SDOH), as the root causes of ill health, is especially important in family medicine residency training. In the discipline of family medicine we care and advocate for our patients over a continuum of time and must strive to improve the health of our communities.

This session will show how the integration of TED talks into these SDOH workshops can serve as a foundational pillar in global health curriculum. It is the intention for this SDOH curriculum to be integrated into the academic teaching planned for family medicine trainees within the DFCM. Evaluation of acceptability of each workshop is currently in progress through the pilot project, and will not be presented at this session. This session will familiarize attendees with how to implement these workshops in their own teaching environment.

- Emmanuelle Britton, MD, Toronto ON
- Pierre Robichaud, MD, University of Ottawa, Ottawa ON

Symposia # 18 – Nova Scotia/Newfoundland Rooms
Harnessing the Professionals – Why Institutional Health Partnerships Work

The critical shortage of appropriately trained health workers in developing countries threatens to undermine efforts to improve the availability of quality health services to the poorest and most disadvantaged people in the world. Where is the logic in improving access to healthcare if people continue to encounter poorly-trained staff and unsafe practices?

This session will explore the history and development context of Health Partnerships; their value at home and abroad; why they are able to achieve results that other development interventions find difficult; how to go about setting up a Health Partnership; what makes a great Health Partnership; the challenges that Health Partnerships encounter; and why Health Partnerships should be in every development professional’s toolkit.
• Andrew Jones, Head of Partnerships at THET
• Shauna Mullally, Biomedical Engineering Consultant to THET

Oral Session # 9 - New Brunswick Room

MDGs: Progress Made and Lesson's Learned: Global Health Research

Chair: Stephanie Nixon, Assistant Professor, University of Toronto, Toronto ON

• Global Health Competencies for Nurses in Brazil
  Carla Aparecida Arena Ventura, BA, LLM, PhD, Associate Professor, University of Sao Paulo at Ribeirao Preto
  College of Nursing, Sao Paulo, Brazil

• Access to Skilled Birth Attendance in Rural Pakistan: Programmatic and Social Challenges
  Zubia Mumtaz, MD, University of Alberta, Edmonton

• Predictors The Sepo II Study: Experiences of 'Functioning, Disability and Health' of Women and Men Living with HIV in Lusaka, Zambia
  Stephanie Nixon, Assistant Professor, University of Toronto, Toronto

• Exploring in-country partner perspectives regarding international student placements
  Margot Underwood, Assistant Professor, Mount Royal University, Calgary

• Water-based hand sanitizer and micronutrient powders prevent infections and diminish linear growth faltering among low birth weight Bangladeshi infants
  Stanley Zlotkin, Chief, Global Child Health, Hospital for Sick Children, Toronto

3:15pm - 4:30pm - Provinces/Confederation I Ballroom/Salle de bal Province/Confédération I

Closing Plenary/Plénière de cloture

Canada and the Post 2015 Agenda

Presentation of the Don and Elizabeth Hillman Award for best student poster/Remise du Prix Drs Don et
Elizabeth Hillman pour meilleure affiche soumise par un étudiant.

This round table discussion will address what Canada and Canadians should be doing to prepare for the Post 2015 Agenda, and how we should ensure health is integrated into its global agenda. The objective of this final discussion is to present workable proposals and key recommendations to Canada’s Governments at the various levels, civil society, private sector and academia

Chair: Kate Dickson, CSIH Board Member

Discussants include:

Michael Clarke, Director, Global Health Policy, IDRC

A biomedical microbiologist by training, Michael Clarke is an internationally renowned expert on the impacts of new technologies in the developing world, particularly in the areas of health and education. Clarke heads up IDRC’s Global Health Policy program. He also spent several years as Director of the Information and Communications Technologies for Development (ICT4D) program at IDRC. Before joining IDRC, he worked in the University of Ottawa’s faculty of medicine, directing the design and delivery of its e-curriculum. Clarke taught for years in the faculty of medicine at the University of Western Ontario; he spent a sabbatical year working in a Public Health Agency of Canada laboratory, where he
contributed to research on the Walkerton, Ont., outbreak of pathogenic E. coli. He is a founding editorial board member of Open Medicine, an independent, open-access health research journal.

Clarke holds a PhD in microbiology from the Ontario Veterinary College at the University of Guelph.

Ron Labonté, Canada Research Chair in Globalization and Health Equity, Institute of Population Health, and Professor, Department of Epidemiology and Community Medicine, University of Ottawa

Ron Labonté is also Adjunct Professor, Department of Community Health and Epidemiology, University of Saskatchewan. His current research interests include globalization as a ‘determinant of determinants’. He chaired the Globalization Knowledge Network for the WHO Commission on Social Determinants of Health. He has over 150 scientific publications and several hundred articles in popular media.

Lisa Forman, Director, Comparative Affairs Program on health and Society, Munk Shool of Global Affairs, University of Toronto

Lisa Forman is a South African human rights lawyer and international human rights law scholar whose research explores the contribution of the right to health in international law to remediating global health inequities. Her current research focuses on the strengthening of the concept of the minimum core concept within the international human right to health, and the development of post-2015 rights-based health development goals. In 1993, she completed a BA and LLB at the University of the Witwatersrand, and in 1995, completed articles of clerkship and the qualifying board exams to become a practicing lawyer. From 1996-1999, Forman worked as a human rights lawyer on HIV/AIDS at the Centre for Applied Legal Studies at the University of the Witwatersrand, and then as a consultant on HIV/AIDS and human rights at the National Commission on Gender Equality.

Julia Sanchez, President and CEO, Canadian Council for International Co-Operation

Julia Sanchez, who was appointed in May 2011 as the President-CEO of CCIC, brings more than 18 years of experience in top-level international development management, including 13 years working in developing countries. Until 2011, she served as Regional and National Campaigns Director for the Global Campaign for Climate Action (GCCA/Tcktcktck.org) and previous to that worked for 14 years at the Centre for International Studies and Cooperation (CECI), one of Canada’s oldest and largest international development agencies. She has also worked as a consultant with Oxfam Great Britain, with USAID, and in partnership with the Canadian International Development Agency (CIDA) and a variety of other donor agencies such as IDB, ADB, UNHCR, etc.

David Brook, Senior Advisor, Grand Challenges Canada

Prior to joining Grand Challenges Canada, Mr. Brook was the founder and President of DBk Consulting Inc. a consulting firm specializing in innovation, health and environmental policy, commercialization and citizen engagement. During that time, Mr. Brook worked as a strategist, lead researcher, analyst and project manager on a wide array of projects and processes, both individually and in conjunction with several leading consulting groups and not-for-profit organizations. Mr. Brook has worked with a number of small- and medium-sized green energy companies, helping them to develop business strategies and to commercialize new products and technologies. Prior to founding DBk Consulting, Mr. Brook worked as a Senior Research Associate with the Public Policy Forum in Ottawa.

Mr. Brook has an Honours Degree in Interdisciplinary Studies (International Development) and a Masters Degree in Political Economy from Carleton University.
Poster Presentations/Liste d’affiches

*indicates a student

**MDGs: Progress Made and Lesson’s Learned: Equity and Development**

- Reflections from the Field: PAHO’s Faces, Voices, and Places Initiative for the Millennium Development Goals in Nicaragua, Belize, and the Bahamas
  *Chang, Alison*, Simon Fraser University, Vancouver BC
- A Comparative Study of Emotional Well-Being of School-Aged Children Born In and Outside of Canada
  *Alyssa Parpia*, Queen’s University, John Freeman (Queen’s University) Davison, Colleen, (Queen’s University)
- Using Social Cognitive Theory to better understand inequity in unmet need for family planning in Guatemala: The methodology of elicitation interviews
  *Richardson, Emma*, University of Toronto, Toronto ON
- Servicios amigables en salud sexual y salud reproductiva para las mujeres de Bogotá, Colombia
  *Romero Niño, Ingrid Paola*, Bogota, Columbia; Paola Salgado, Secretaria Distrital de Salud de Bogota
- Traditional Medicine and Primary Health Care
  *Torri, Maria Costanza*, Assistant Professor, University of New Brunswick, Fredericton NB

**MDGs: Progress Made and Lesson’s Learned: Ethics of Development**

- Global Health Competencies for Nurses in Brazil
  *Arena Ventura*, Carla Aparecida, BA, LLM, PhD, Associate Professor, University of Sao Paulo at Ribeirao Preto College of Nursing, Sao Paulo, Brazil; Isabel Amelia Costa Mendes (University of Sao Paulo at Ribeirao Preto College of Nursing), Lynda Wilson (University of Alabama at Birmingham School of Nursing), Simone de Godoy (University of Sao Paulo at Ribeirao Preto College of Nursing), Rosa Zárate (Universidad Autonoma de Mexico), Susana Salas (Universidad Autonoma de Mexico)
- Children’s Acute Psychological Responses to the Tsunami in Sri Lanka’s Conflict Zone
  *Deonandan, Raywat*, University of Ottawa, Ottawa ON, Suvendrini Lena (University Health Network), Rachael Braund (University of Ottawa)

**MDGs: Progress Made and Lesson’s Learned: Global Health Research**

- The Andean Diet – Strengths, weaknesses and potential for change
  *Berti, Peter*, Healthbridge, Ottawa ON; Cynthia Fallu (HealthBridge), Yesmina Cruz (Vecinos Mundiales), Erin O’Reilly (University of Ottawa)
- Appui à la santé maternelle et périnatale par le biais de la formation initiale et continue
  *Dortonne, Jean Richard*, Gestionnaire de projet, Societe des Obstetriciens et Gynecologues du Canada (SOGC), Ottawa ON
- An analysis of drug stock-outs in rural Kenya and subsequent patient impact
  *Dunca, Greg*, Students for International Development and University of Toronto, Markham ON
- To give birth safely, with power and dignity: Reducing maternal mortality through State obligations to regulate the midwifery profession
  *Montgomery, Ann*, Registered Midwife, PhD(c) - Epidemiology, Past-President of the College of Midwives of Ontario
• **Medium-Term Psychosocial Outcomes of Patients on Antiretroviral Therapy in Rural Western Uganda**  
  *Paulsen, Catherine*, MSc Candidate, University of Alberta; L. Duncan Saunders (University of Alberta), Arif Alibhai (University of Alberta), Joseph Konde-Lule (Makerere University), Amy Kaler (University of Alberta), Tom Rubaale (Kabarole Health Department), Peter Rwakilembe (Kabarole Health Department)

• **A retrospective analysis of alternate diagnoses for acute febrile illness in an environment of decreasing malaria misdiagnosis**  
  Quach, Kimberly, University of Calgary, Calgary AB, Lisa K. Allen-Scott (University of Calgary), Mange Manyama (Catholic University of Health & Allied Sciences), Elias Charles (Catholic University of Health and Allied Sciences), Jennifer M. Hatfield (University of Calgary)

• **Strengthening Indigenous traditional medicine and intercultural healthcare in Bolivia?**  
  Torri, Maria Costanza, Assistant Professor, University of New Brunswick, University of New Brunswick, Fredericton NB

**MDGs: Progress Made and Lesson’s Learned: Progress towards the MDGs (eg: HIV/AIDs, MNCH)**

• **The fee exemption policy and access to maternal health services. Lessons from rural Ghana**  
  Addo Ofosu, Henry, Catholic University College of Ghana; Fiapre Sunyani, Ghana; Eugenia Afoakwa (Catholic University College of Ghana, Fiapre)

• **Prevalence and determinants of malnutrition in children under two years: A comparative study between urban and peri urban children in Ghana**  
  Buahin, Jennifer, Holy Family Hospital, Public Health Dept. Berekum, Ghana; Richlove Berchie (Standard Chartered Bank, Accra)

• **International Teaching on Breast Diseases: locally grown, globally known**  
  Duchesne, Natalie, MD FRCPC, Centre Hospitalier Universitaire de Quebec (CHU), Ste. Foy, QC, Dominique Duchesne (CEB Quebec), Simon Duchesne (Quebec city Mental Health Institute)

• **Underserved no More**  
  Duchesne, Natalie, MD FRCPC, Centre Hospitalier Universitaire de Quebec (CHU), Ste. Foy, QC; Gilles Clairoux (Fujitsu)

• **Exploring the role of nutrition in the decline of child mortality over the past decade in rural Malawi**  
  *Gaffey, Michelle*, Dalla Lana School of Public Health, University of Toronto, Toronto ON;

• **Women and children with disabilities: On the margins of MNCH MDGs**  
  Jalovic, Djana, Director, International Centre for the Advacemnt of Community Based Rehabilitation (ICACCR), Queen's University, Kingston ON; Darko Krznaric (ICACCBR, Queen's University), Elizabeth Richan (ICACCBR, Queen's University), Malcolm Peat (ICACCBR, Queen's University)

• **Availability of emergency obstetric and newborn care (EmONC) signal functions in public facilities in selected districts of Bangladesh**  
  Roy, Lumbini, MPH, MBBS, (International Centre for Diarrhoeal Disease Research, Bangladesh (icddr,B), Dhaka, Bangladesh: Nezam Uddin Biswas Maksudur Rahman, Taposh Biswas, Shamima Akhter, Ahmed Al Sabir & Mahbub Elahi Khan Chowdhury (International Centre for Diarrhoeal Disease Research, Bangladesh (icddr,B)

• **Vaccinations and routine growth and development visits in child health care in Peru: Opportunities for piggybacking deworming and achieving the MDGs**  
  *Joseph, Serene A.*, PhD Candidate, McGill University, Montreal, QC; Martín Casapia (Asociación Civil Selva Amazónica), Brittany Blouin (McGill University Health Centre), Theresa W. Gyorkos (McGill University; McGill University Health Centre)

• **Participation de la communauté dans la prise en charge des cas de tuberculose au Sénégal**  
  Mbodji, Momar Talla, Plan Sénégal, Dakar; Fatou Kiné Wathe (Plan Sénégal)

• **Paediatric inpatient admissions in a tertiary public referral hospital in Guyana: targeting the needs of a new postgraduate training program**
GLOBAL HEALTH IN 2013: ARE WE HAVING AN IMPACT?

Tanguay, Sophie, Pediatric Resident, McMaster Children’s Hospital, Hamilton ON; Andrea Hunter (McMaster Children’s Hospital), Julie Johnstone (Hospital for Sick Children (Toronto), Narendra Singh (Humber River Regional Hospital (Toronto))

The Post 2015 Development Agenda: Early Childhood Development

- Using community health volunteers to promote multiple micronutrient powders for young children in Bolivia: A pilot project
  Angelow, Lindsay. Program Officer, Americas, Canadian Red Cross, Ottawa ON; Kimberly Harding (Micronutrient Initiative)
- Reduction of Infant Mortality in Saskatchewan’s Youth
  Keshvara, Anil, University of Saskatchewan, Saskatoon SK; Bahar Bahrani and Matthew Feldman
- Assessment Of The Growth Development of Children Under 5 Years old in Lebanon
  Najjar, Joelle, Health Specialist, World Vision, Beirut, Lebanon

The Post 2015 Development Agenda: Global Health Research

- Building a Doctoral Student Complementarity Approach (DSCA): Developing ways to strengthen student researchers’ work through increased connections
  *Cleaver, Shaun, PhD Candidate, University of Toronto, Graduate Department of Rehabilitation Science, Toronto ON; Stephanie Nixon (University of Toronto, Department of Physical Therapy)
- Post-colonial troubling of racialized health research through co-constructed Haitian Canadian women’s life narratives
  *Halligan, Cynthia, University of Lethbridge, Lethbridge AB,
- A “Virtual Platform Laboratory” to study Online Engagement and Knowledge-sharing
  Heidebrecht, Dave, Research Officer, CCGH, Ottawa ON; Lawrence Mbuagbaw (Centre for the Development of Best Practices in Health (Cameroon), Leslie Chan (University of Toronto Scarborough), Mara O’Brien (CARE Canada)
- Development of a data collection tool to increase efficiency in global health epidemiological research studies
  Mofid, Layla, Department of Epidemiology, Biostatistics and Occupational Health, McGill University, Montreal QC; Brittany Blouin (Research Institute of the McGill University Health Centre), Theresa W. Gyorkos (Department of Epidemiology, Biostatistics and Occupational Health, McGill University),
- The thirst for more: Assessing the direct healthcare costs of wastewater irrigation and the feasibility of waste stabilization ponds in the Mezquital Valley of Mexico
  *Syed, Saif, UN Water & McMaster University, Markham ON; Chris Metcalfe (UN Water), Christopher Longo (McMaster University)

The Post 2015 Development Agenda: Sustainable Development

- A model for sustainable, effective medical voluntourism: Haiti Village Health’s Pediatric Outreach Program
  Allison, Jill, Global Health Coordinator, Memorial University, St. John’s NL; Emmanuelle Britton (University of Toronto), Mary Ann LaFrumento (Goryeb Children’s Hospital, Morristown, New Jersey), Tiffany Keenan (Haiti Village Health)
- Ecoclubs for Canada: Empowering Youth Leadership
The Post 2015 Development Agenda: Training, Service Delivery and Health Human Resources

- **Shifting the role of traditional birth attendants: does it improve maternal health outcomes?**
  Alemu, Yosef, Project Manager, Improving Maternal and Child Health: Partnership and Action for Community Transformation (IMPACT), CCFC Christian Children's Fund of Canada; Atsenash Gossaye (CCFC), Dr. Philip Tanner (CCFC), Rowena Sugay (CCFC)

- **A tool to review gender equality of human resource documents for public sector nurse-midwives in Bangladesh**
  Collens, Steven, Cowater International, Human Resources for Health in Bangladesh Project; Zillar Rahman (Ministry of Health and Family Welfare (MOHFW) Bangladesh), Farzana Mamtaz (Human Resource Management (HRMU) Unit, MOHFW, Bangladesh), Dr. Lubana Ahmed (Cowater International (Human Resources for Health in Bangladesh Project)

- **CSIH MentorNet- Impact of a Formal Global Health Mentorship Program on Students and Young Professionals (SYPs)**
  Shweta Dhawan, University of Alberta, School of Public Health, Edmonton AB; Amanda Frain, Caity Jackson, Celilidh MacPhail, Larissa Padayachee, Shanna Sunley, Katia Wong

- **Pilot study of skills retention after the Essential Surgical Skills course in Tanzania**
  Fairfull Smith, Robert, Assoc. Prof. of Surgery, Ottawa University, Ottawa ON; Isabelle Raiche (University of Ottawa), Fatima Haggar (University of Ottawa), Jannah Wilson (University of Ottawa), Husein Moloo (University of Ottawa)

- **Exploring the Health Equity Impacts of Medical Tourism: Current Examples from Mexico, India, Barbados, and Guatemala**
  *Johnston, Rory*, PhD Candidate, Department of Geography, Simon Fraser University, Vancouver BC; Valorie A. Crooks (Department of Geography, Simon Fraser University), Ronald Labonté (Faculty of Medicine, University of Ottawa), Jeremy Snyder (Faculty of Health Sciences, Simon Fraser University)

- **Developing a model for global health medical education: Applying learning theories to teaching in resource-poor settings**
  Johnstone, Julie, MD, Hospital for Sick Children, Ottawa ON;

- **Problem-based learning within surgical clerkship in Guyana: A pilot project**
  *Kazmi, Kescha*, Michael G. DeGroote School of Medicine, McMaster University; Alison Bruni (Michael G. DeGroote School of Medicine, McMaster University), Barbara Tatham (Michael G. DeGroote School of Medicine, McMaster University), Premanand Gopie (Michael G. DeGroote School of Medicine, McMaster University), Alisha Fernandes (Michael G. DeGroote School of Medicine, McMaster University)

- **Building a framework for global health concentrations – an analysis of Canadian medical schools**
  *Kherani, Irfan*, National Officer for Global Health Education, Canadian Federation of Medical Students, Edmonton AB

- **Sharing In Health - Strengthening capacity for distributed medical and nursing education in primary care**
  LaPierre, David, MD, Chatham ON;

- **An innovative and comprehensive global health education program for University of Calgary medical students – The Global Health Concentration**
  Manalo, Elbert Jeffrey, University of Calgary, Calgary AB; Farah Ladak (University of Calgary), Stephanie Brown (University of Calgary), David Cook (University of Calgary), Aleksandra Ivanovic (University of Calgary), Emily Shelton (University of Calgary), Robert Shyleyko (University of Calgary), Ratika Srivastava (University of Calgary), Rachel Lim (University of Calgary), John Paterson (University of Calgary), Caley Shukalek (University of Calgary), Kimberly Williams (University of Calgary), Rita Watterson (University of Calgary), Giselle DeVetten (University of Calgary)
Thinking beyond our borders: Investigating ideal competencies for Canadian physiotherapists working in resource-poor countries

Nixon, Stephanie, Assistant Professor, University of Toronto, Toronto ON; Christina Cassidy (University of Toronto), Carmen Chan (University of Toronto), Julie Englehardt (University of Toronto), Rehana Meru (University of Toronto), Michelle Fraser (Canadian Physiotherapy Association, International Health Division)

Chilean Inter-professional Capacity Building Program in Primary Health Care: A follow-up study

Rouleau, Katherine, MD, University of Toronto - Department of Family & Community Medicine, Toronto ON; Jamie Rodas (University of Toronto- Department of Community & Family Medicine ), Paula Godoy- Paiz (University of Toronto- Department of Community & Family Medicine ), Yves Talbot (University of Toronto- Department of Community & Family Medicine ), Greg Nasmith (University of Toronto- Department of Community & Family Medicine )

Designing for impact: Linking Research and Practice in Low-resourced areas

Siemens Ron, MD, Royal University Hospital, University of Saskatchewan, Saskatoon SK; Sheryl Mills (University of Saskatchewan, Gwenna Moss Center for Teaching Effectiveness)

The Remaining Challenges: Global Health Research

A participatory awareness raising initiative: Uncovering local perceptions of alternate causes of acute febrile illness in rural Tanzania

*Cheuk, Samantha, The O’Brien Centre for the Bachelor of Health Sciences Program at the University of Calgary; Lisa K. Allen-Scott (University of Calgary), Mange Manyama (The Catholic University of Health & Allied Sciences), Elias Charles (Bugando University), Sheri Bastien (University of Calgary), Jennifer M. Hatfield (University of Calgary)

Mentoring, training and support to global health innovators: A scoping review

*Cho, Dan-Bi, MPH Candidate, (Health Promotion & Global Health), Global Health Division, Dalla Lana School of Public Health, University of Toronto; Donald Cole (Global Health Division, Dalla Lana School of Public Health, University of Toronto; Canadian Coalition for Global Health Research), Ken Simiyu (Grand Challenges Canada), Winnie Luong (Grand Challenges Canada), Vic Neufeld (Department of Clinical Epidemiology & Biostatistics, McMaster University, Canadian Coalition for Global Health Research)

Innovative Learning Experiences and Assessment Strategies for Educating Global Health Scholars

*Kaba, Alyshah, PhD Candidate, University of Calgary, Calgary AB; Jennifer Hatfield (University of Calgary), Bonnie Buntain (University of Calgary)

A team approach to providing clinical care and medical education in Haiti: Team Broken Earth

Croft, Stephen, Team Broken Earth, St. John’s NL

Ensuring healthy health systems through citizen engagement: the case of Brazil’s participatory health councils.

Kohler, Jillian, Assistant Professor and Director of Global Health, Leslie Dan Faculty of Pharmacy and Munk School of Global Affairs, University of Toronto; Martin T. Schechter (School of Population and Public Health, University of British Columbia), Nelson K. Sewankambo (Makerere University College of Health Sciences), Patricia M. Spittal (School of Population and Public Health, University of British Columbia)

Improvements in pre-departure training for Canadian medical students participating in global health electives

Manalo, Elbert Jeffrey, University of Calgary, Calgary AB; Kristen Neudorf (University of Ottawa), Neil Arya (University of Ottawa), William Cherniak (University of Toronto)

The challenges of post-conflict programming: Comparison of HIV-related vulnerabilities between former child soldiers and children never abducted by the LRA in northern Uganda

Patel, Sheetal, Northern Uganda HIV/AIDS Prevalence Study (NUHAPS), Vancouver, BC; Martin T. Schechter (School of Population and Public Health, University of British Columbia), Nelson K. Sewankambo (Makerere
University College of Health Sciences), MD, Patricia M. Spittal (School of Population and Public Health, University of British Columbia)

- **Perinatal Distress: Journeyed around the world, the discovered, minding the gap**
  Premji, Shahirose, Associate Professor, University of Calgary, Faculty of Nursing, Calgary AB

- **Global Health Through a Local Lens: A Community Service Learning program to support refugees, engage students and fill a gap in the community**
  *Sickand, Manisha*, University of Ottawa, Ottawa ON; Rebecca Warmington (University of Ottawa), Lee Saliba (University of Ottawa)

**The Remaining Challenges: Health System Strengthening**

- **Towards strengthening human resource policies and rules for public sector nurse-midwives in Bangladesh**
  Ahmed, Lubana, Dr., Cowater International (Human Resources for Health in Bangladesh Project), Stephen R Collens (Cowater International (Human Resources for Health in Bangladesh Project)), Zillar Rahman (Ministry of Health and Family Welfare (MOHFW) Bangladesh), Farzana Mamtaz (Human Resource Management (HRMU) Unit, MOHFW, Bangladesh)

- **Overcoming delays to seeking treatment for suspected sepsis in newborns and young children in Bangladesh**
  Aboud, Frances, Professor, Department of Psychology, McGill University, Montreal QC; Nabeel Ashraf Ali (International Centre for Diarrheal Disease Research), Professor, Department of PyFahtmida Taleb (International Centre for Diarrheal Disease Research), Rosemin Kassam (University of British Columbia)

- **How immigrant women living in Ontario experience culturally competent care during pregnancy.**
  Amoako Elsie

- **Surgical And Medical Mentorship In Afghanistan: How Are Military Surgical And Medical Mentors Perceived By Afghan Physicians?**
  Beckett, Andrew, Canadian Forces Health Services, Toronto ON; Robert Fowler (University of Toronto), Neil Adikhari (University of Toronto), Laura Hawryluck (University of Toronto), Homer Tien (Canadian Forces Health Services)

- **MCH handbook international collaboration: ensuring human security, women empowerment and continuity of MNCH care-experience from Japan**
  Bhuiyan, Shafi, Adjunct Faculty, Global Health Division of the Dalla Lana School of Public Health, Toronto ON; Nakamura Yasuhide (International Collaboration Division, Osaka University, Japan), All Board Members MCH Handbook International Committee (International Committee on MCH Handbook, Osaka, Japan)

- **Providing ethical guidance for military and humanitarian healthcare practitioners can help strengthen healthcare delivery**
  *Gillespie, Leigh-Anne*. Health Policy PhD Student, McMaster University, Hamilton ON; Bryn Williams-Jones (Université de Montréal), Caitlin O'Donnell (McMaster University), Ali Okhowat (Université de Montréal), Lisa Schwartz (McMaster University)

- **Analysis of the process and factors used in vaccine introduction decision-making: A pilot study in Ecuador**
  McNamara, Natasha, Cara Janusz (PAHO/WHO HQWDC), Barbara Jauregui (PAHO/WHO HQW DC), Andrea Hunter (McMaster University), Maria Susana Panero (PAHO/WHO ECU)

- **Strengthening community based health services for better uptake of maternal and child health care services: The case of Bondo district, Kenya.**
  Mugenzi, Joan, Health and HIV Monitoring and Evaluation Specialist, World Vision International; Julius Oliech (Bondo District Health Office), Joel Milambo (Bondo District Health Office), Mesfin Loha (World Vision International), Jascinter Odira (World Vision Kenya), Caroline Wanyama (World Vision Kenya), Collins Odhiambo Owino (Maseno University, Kenya)
• Ongoing healthcare systems development in the Sabatia District of Western Province, Kenya
  *Qiu, Mary*, Project Manager/Student, Students for International Development (SID), Brampton ON; Kaitlin Atkinson (Students for International Development/Queens University), Greg Dunca (Students for International Development/University of Toronto)

  **The Remaining Challenges: Integrating the Social Determinants of Health**

• InSIGHT: Integrating social determinants into a pre-clerkship international global health program
  *Allison, Jill*, Global Health Coordinator, Memorial University of Newfoundland, St. John’s NL; C. Emmanuelle Britton (University of Toronto), Mary Ann LaFrumento (Goryeb Children’s Hospital, Morristown, New Jersey), Tiffany Keenan (Haiti Village Health)

• The University of Alberta Global Health Program – A platform for global health training in medical school
  *Bana, Rabia*, MPH, MD Candidate, University of Alberta, Edmonton, AB; Riley Davidson (University of Alberta), Irfan Kherani (University of Alberta)

• Gendered effects of neoliberal economic policies on the gap in health inequality: perspectives from India
  *Bhandal, Taq*, Master’s Student in M.A. Health Policy and Equity Program, York University, Burnaby, BC;

• Assessment of the health seeking behavior of people in the informal sector in rural Ghana
  *Doku, Medina*, Centre for the Empowerment of the Vulnerable, Sunyani, Ghana;

• The effects of the economic crisis on health in Italy
  *Olivadoti, Simona*, Dr., Agenas, Rome; Mara Tognetti Bordogna (University of Milan-Bicocca)

• Social determinants of health associated with cervical cancer screening among women living in developing countries: a scoping review
  *Williams-Brennan, Leslie*, University of Toronto, Toronto ON; Denise Gastaldo (University of Toronto), Donald C. Cole (University of Toronto), Lawrence Paszat (University of Toronto)

  **The Remaining Challenges: Measurement of the Impact of Interventions**

• Unintended consequences of public health interventions: foundations for a comprehensive explanatory framework.
  *Allen-Scott, Lisa*, PhD Candidate, Community Health Sciences Faculty of Medicine, University of Calgary, Calgary AB; Jennifer Hatfield (University of Calgary)

• Nicaraguans’ perceptions of North American medical missions: integrating beneficiary experiences into the ethical practice of humanitarian healthcare
  *Nouvet, Elysee*, Postdoctoral Fellow Humanitarian Healthcare Ethics, McMaster University, Hamilton ON;

• Evaluating the effectiveness of deworming in pre-school children in Western Province, Kenya
  *Sivananthajothy, Priatharsini (Tharsini)*, Students for International Development, Scarborough, ON; Kaitlin Atkinson (Queens University)

• Rehabilitation interventions for children living with HIV: A scoping review
  *Stevens, Marianne*, University of Toronto, Toronto ON; Bonnie Kirsh (University of Toronto), Stephanie Nixon (University of Toronto)

  **The Remaining Challenges: Neglected Areas**

• Intrapersonal and interpersonal barriers to participation in cardiac rehabilitation programs for Chinese immigrants in Canada: A literature review
  *Braund, Rachael*, University of Ottawa, Ottawa ON; Melissa Billard (University of Ottawa)

• «Vers l’implantation d’un modèle de prise en charge de maladies chroniques au Bénin»
  *Chomienne, Marie Hélène*, MD, Msc, Institut de recherche de l’Hopital Montfort, Ottawa ON;
Collaborating with Persons with Disabilities in Zambia to Rethink Rehabilitation
*Cleaver Shaun, PhD Student, University of Toronto, Graduate Department of Rehabilitation Science, Toronto, ON; Lilian Magalhaes (Western University - School of Occupational Therapy), Stephanie Nixon (University of Toronto - Department of Physical Therapy), Helene Polatajko (University of Toronto - Department of Occupational Science and Occupational Therapy)

Health Passports for newcomers to Thunder Bay: Improving access to care and engaging the community
*Delorme Tamara, Northern Ontario School of Medicine, Thunder Bay ON; Samantha Biggs (Northern Ontario School of Medicine), Dannica Switzer (Northern Ontario School of Medicine)

Understanding Aboriginal health experiences to improve the assessment of chronic pain
*Geddes, Alexa, University of British Columbia (Okanagan), Kelowna BC;

Stigma and Mental illness conceptions of general population and health professions in Brazil
*Guimaraes, Patricia, Post doctoral fellow, McGill University, Montreal QC; Duncan Pedersen (Division of Social and Transcultural Psychiatry, Department of Psychiatry, McGill University)

Can education alone make a difference in developing human resource capacity in mental health care?
Hennigar Sandra, Project Manager, Global Psychiatry, Dalhousie Faculty of Medicine, Dalhousie University, Halifax, NS;

Indigenous mortality and Inequalities in Latin America: the cases of Brazil and Ecuador
Marinho de Souza, Maria Fatima, Dr., Pan American Health Organization, Washington DC; Isabel Noguer (Pan American Health Organization), Patricia Soliz (Pan American Health Organization), Ramon Martinez (Pan American Health Organization), Airlane Alencar (University of Sao Paulo, Brazil), Fabiana Del Popolo (Demographic Center for Latin America and Caribbean)

Exploring the parameters of defining slums
*Patel, Maya, BSc, MSc. Candidate, University of Ottawa, Ottawa ON; Raywat Deonandan (University of Ottawa), Angel Foster (University of Ottawa), Rama Nair (University of Ottawa)

Innovative Approaches to Cervical Cancer Screening for Sex Trade Workers: An International Scoping Review
*Thulien, Naomi, NP-PHC, MN, PhD Student, Lawrence S. Bloomberg Faculty of Nursing, University of Toronto, Toronto ON;
Help us decide on a theme for the 21st Canadian Conference on Global Health
