**Health of marginalized populations during and following periods of crises/ La santé des
populations marginalisées pendant et après les périodes de crise*****Rideau Room – 3rd floor***

Rideau 1

* Valentina Antonipillai, McMaster University, Canada

Policy agenda-setting analysis: examining factors that placed Canadian refugee health policy reforms on the decision agenda in 2016

Rideau 2

* Dave Bergeron, Université de Sherbrooke, Canada

Évaluation du niveau de santé buccodentaire des enfants d'âge scolaire vivant dans des communautés rurales andines

Rideau 3

* Palki Bhatt, McMaster University, Canada

Children's' wellbeing as influenced by family violence and caregiver psychosocial wellbeing in humanitarian contexts—a scoping study

Rideau 4

Hani Dajani, Canadian Red Cross, Afghanistan

Sustaining humanitarian interventions through Social Investments

Rideau 5

* Ebenezer Dassah, Queen's University, Canada

A qualitative synthesis of access to primary health care services for persons with disabilities in low and middle income countries

Rideau 6

* Meaghan Doner, University of Glasgow, United Kingdom of Great Britain and Northern Ireland

Gender inequality in WASH during disaster response

Rideau 7

*Elizabeth Faour, Memorial University Faculty of Medicine, Canada

Reflection on the HIV/AIDS epidemic in Zambia in the context of Maternal and Child Health: A medical student perspective

Rideau 8

Victor A. Fatimehin, CCISD - Centre de coopération internationale en santé et développement, Nigeria

Towards building a formidable disease surveillance and response workforce in West Africa: Experience from the West Africa Regional Disease Surveillance Capacity Strengthening (WARDS) Project in selected Local Government Areas (LGAs) in Nigeria

Rideau 9

*Labib Girgis, Family Medicine Department, McGill University, Canada

Lessons from the eastern mediterranean region on how health workers can mobilize action on the social determinants of health

Rideau 10

*Emma Herrington, CAMSAHT, Canada

Improving human trafficking victim identification in the healthcare setting by modifying Canadian medical education

Rideau 11

Embry Howell, Urban Institute, United States of America

The impact of war and conflict on child health in 18 African countries

Rideau 12

Rozina Karamaliani, Aga Khan University, Pakistan

Locating the marginalized in health systems

Rideau 13

Rozina Karamaliani, Aga Khan University, Pakistan

Innovation in Researching Health of the Marginalized in Northern Areas of Pakistan

Rideau 14

*Julie Lauzière, Université de Sherbrooke, Canada

La sécurité culturelle – un concept à explorer pour des services de santé mieux adaptés

Rideau 15

Rachel Meagher, Canadian Red Cross, Canada

Improving health information systems (HIS) in Red Cross field hospitals

Rideau 16

*Erynn Monette, McMaster University, Canada

refugee care in lebanon: palliative care efforts and access

Rideau 17

*Afnan Naeem, Dalla Lana School of Public Health, University of Toronto, Canada

A scoping review of the post-arrival health needs, issues, and concerns among refugee women in Canada

Rideau 18

Maisam Najafizada, Memorial University of Newfoundland, Canada

Implementing health-related SDGs in Afghanistan

Rideau 19

*Ruth Nara, International Development Research Centre / University of Ottawa, Canada

Understanding the reproductive health needs of displaced Congolese women in Uganda

Rideau 20

Michelle Pensa Branco, SafelyFed Canada, Canada

Not every little bit helps: impacts of untargeted breastmilk substitute distribution in disasters

Rideau 21

Kara Redden, McGill University, Canada

Interventions to support international migrant women's reproductive health in Western-receiving countries: a systematic review and meta-analysis

Rideau 22

*Jessica Maria-Violanda Spagnolo, School of Public Health, IRSPUM, University of Montreal, Canada

Implementing a mental health training in Tunisia: general practitioners' impressions of the program

Rideau 23

Myroslava Tataryn, Handicap International, Canada

Methods of inclusion: Tackling disability and vulnerability in humanitarian crises

Rideau 24

*Anika Winn, University of Calgary, Canada

Health care professionals perspectives on caring for pregnant refugee women in Calgary, Alberta

Research, Innovation and Measurement for equitable action/ Recherche, innovation et évaluation pour des interventions équitables

Gallery room – 3rd level

Gallery 1

ADEYEMI ABATI, LAGOS UNIVERSITY TEACHING HOSPITAL, Nigeria

Hepatitis c virus testing and treatment among persons receiving buprenorphine in an office-based program for opioid use disorders in Nigeria

Gallery 2

DERRICK BARY ABILA, SMS MAAMA, Uganda

Training of the next generation One Health Workforce: An Experience from a Rural Community in Western Uganda

Gallery 3

Kehinde Agbaiyero, Abt, Nigeria

Benefit of innovation technology in management of TB and DRTB cases

Gallery 4

*Natasha Altin, University of Toronto, Canada

Applying a global innovation for equitable action to Canada's north: Analysis of access to assistive technology using WHO's GATE initiative

Gallery 5

*Gabriel April-Lalonde, Université de Montréal, Canada

Impact de la consommation alimentaire responsable sur la nutrition et la santé en Équateur

Gallery 6

Linda Chan, Office of Global Health, Queen's University, Canada

Global health placements: Building health professionals' capacity to work in global health contexts

Gallery 7

*Shaun Cleaver, School of Physical and Occupational Therapy, McGill University, Canada

Toward equitable action in research: Using the CCGHR Principles for Global Health Research as an analytic tool

Gallery 8

*Ethige De Silva, student, Canada

Beverage – specific visual aids and standard drink conversion chart to assess alcohol consumption in any country setting

Gallery 9

*Ziad El-Khatib, Partners In Health / Inshuti Mu Buzima - Rwanda, Rwanda

Protocol for a Pilot Intervention study to assess impact on adherence to clinic visits among children with Type 1 Diabetes in rural Rwanda

Gallery 10

*Lena Faust, University of Ottawa, Canada

Wealth inequality and other socioeconomic correlates of HIV-related knowledge among women in Nigeria

Gallery 11

*Emily Fong, Centre for Global Child Health, Hospital for Sick Children, Canada

Adherence to recommendations at a tertiary care family travel clinic

Gallery 12

Marie Hatem, Université de Montréal, Canada

A variety of human resources offering healthcare to mother and neonates in Togo and Guinea: which quality of services is expected?

Gallery 13

*Logan Haynes, University of Calgary, Canada

Brucellosis Outreach to Primary Schools in the NCA of Tanzania: Creating Health Education Resources Through Teacher Consultations

Gallery 14

Emily Kocsis, CSIH MentorNet, Canada

CSIH MentorNet global health mentorship program: An evaluation of students and young professionals experiences

Gallery 15

Steven Ma, SickKids Centre for Global Child Health, Canada

Elucidating gaps in global resources for mental health

Gallery 16

Janet Martins, Nacional health institute, Mozambique

Evaluation of the Impact of an Intervention at the Maternal and Child Care Management Level: The Case of Scheduled Appointments

Gallery 17

*Marie Merline Maurice, Université d'Ottawa, Canada

Application des principes d'équité verticale et horizontale pour garantir un accès équitable aux interventions d'autonomisation économique des femmes

Gallery 18

Umme Meena, United States Agency for International Development, Bangladesh

quality of ANC services in Satellite Clinics in Rural Bangladesh

Gallery 19

Umme Meena, United States Agency for International Development (USAID), Bangladesh

what is the quality of sterilization services in rural Bangladesh?

Gallery 20

*Catherine Meh, Western University, Canada

Determinants of maternal mortality: A comparison of geographic differences in the northern and southern regions of Cameroon

Gallery 21

*Khalidha Nasiri, York University, Canada

Building the capacity of health institutions to lead policy dialogue and improve health equity: A review of evidence from sub-Saharan Africa

Gallery 22

Jackline Odhiambo, Partners In Health, United States of America

Two birds with one stone: producing operational research through research capacity building in Rwanda

Gallery 23

Oluwasayo Olatunde, Dalhousie University, Canada

The economics of cervical cancer and HPV vaccination: Is nationwide coverage sustainable in low resource settings?

Gallery 24

*Mariame Ouedraogo, University of Ottawa, Canada

Utilization of key malaria and pregnancy complications control measures among women in jimma zone, ethiopia

Gallery 25

*K Srikanth Reddy, McGill University, Canada

A conflict of commitments? multi-sectoral perspectives on WHO FCTC implementation in Kenya, Malawi and Zambia

Gallery 26

*Amber Rieder, McMaster University, Canada

The development and validation of the International Mobile Psychiatric Assessment for Children and Teens (IMPACT) in rural Kenya

Gallery 27

Kariane St-Denis, Research Institute of the McGill University Health Centre, McGill University, PAHO/WHO Collaborating Centre (CC) for Re, Canada

Improving global reporting of recruitment and results in studies of pregnant populations

Gallery 28

Pierre Tayele, Centre de coopération internationale en santé et développement, Democratic Republic of the Congo
Évaluation de l'impact du coaching sur la qualité des diagnostics et des prescriptions des infirmiers en milieu dépourvu des médecins

Gallery 29

Claudia Thomas Riché, GHESKIO, Haiti

Building Haitian nursing research capacity - By Haitian nurses for Haitian Health

Gallery 30

*Leah Watson, Duke Global Health Institute, United States of America

Validation of a mental health assessment for Kenyan parents

Gallery 31

*Mairead Whelan, University of Calgary, Canada

Evaluating the sustainability of Bio-Sand filter technology in Maasai households: Findings from a pilot intervention study in rural Northern Tanzania

Gallery 32

*Daphne Wu, University of Waterloo, Canada

Effectiveness of behavior change communication strategies on improving knowledge, attitude and practices towards vitamin A-fortified oil in Tanzania

Gallery 33

*Moutasem Zakkar, University of Waterloo, Canada

The complexity of health indicator communication and representation

Sustainable and equitable environmental action

Gallery 34

Belinda Adom, Amoako Healthcare City, Ghana

Investing in food safety for equitable and sustainable development

Gallery 35

Lori Hanson, Department of Community Health and Epidemiology, University of Saskatchewan, Canada

Keeping Ground, Refusing Vulnerability: Community resistance against a Canadian mine in rural Nicaragua

Tackling poverty and social exclusion/ La lutte contre la pauvreté et l'exclusion sociale

Dalhousie Room – 3rd floor

Dalhousie 1

Jill Allison, Memorial University of Newfoundland, Canada

The importance of community collaboration in Safer Birth Programs in rural and remote Nepal

Dalhousie 2

*Basmah Almujaidei, McGill University, Department of Family Medicine, Canada

The role of primary care physicians and the nature of inter-professional collaboration in addressing the social determinants of health in a large university teaching hospital in Saudi Arabia

Dalhousie 3

*Gowokani Chirwa, University of York, Centre for Health Economics, United Kingdom of Great Britain and Northern Ireland

socioeconomic inequality in community based health insurance premium contribution in Rwanda

Dalhousie 4

David Collins, Management Sciences for Health, United States of America

The role and cost of comprehensive community health services in Sierra Leone

Dalhousie 5

François Couturier, Université de Sherbrooke, Canada

DECLIC : Un modèle pertinent de partenariat entre les milieux cliniques de 1^e ligne et les institutions académiques pour des soins de santé renforcés

Dalhousie 6

Dolorosa Duncan, Pathfinder International, United Republic of Tanzania

Uber for emergencies: Innovative maternal and newborn emergency care for low-resource settings

Dalhousie 7

*Veronique Foley, Université de Sherbrooke, Canada

Repenser les services de réadaptation pour réduire les inégalités sociales

Dalhousie 8

Miho Goto, Agence Japonaise de coopération internationale/ projet de renforcement des soins de santé maternelle et néonatale, Senegal

Effets de la mise en œuvre du modèle PRESSMN sur l'amélioration des soins de santé maternelle et Néonatale au Sénégal

Dalhousie 9

Sameera Hussain, University of Queensland, Australia

The World We Want, leaving no one behind: how were the voices of marginalized communities represented into the post-2015 global health discourse?

Dalhousie 10

*Jennifer Jeans, Memorial University of Newfoundland, Canada

The Access Clinic

Dalhousie 11

*Youngseo Lee, University of Saskatchewan, Canada

Improving health literacy for newcomers in Regina: A community-based participatory research project

Dalhousie 12

Arlene MacDougall, St. Joseph's Health Care London, Canada

Extending the CREATE psychosocial rehabilitation toolkit to Kenyan mental healthcare settings: a feasibility study

Dalhousie 13

Amilcar Magaco, National Institute of Health, Mozambique

Anthropological Assessment of Attitudes Towards Cholera Interventions, Vaccines, and Potential OCV Uptake in Nampula City 2016

Dalhousie 14

*Shamiel McFarlane, McGill University, Canada

interventions to reduce social isolation among the elderly in low resource settings: a scoping literature review

Dalhousie 15

Albert Mwembo Tambwe-a-Nkoy, SCOGO, Ecole de Santé Publique, Faculté de médecine, Université de Lubumbashi, Democratic Republic of the Congo

Cartographie des maternités viables à Lubumbashi en 2014

Dalhousie 16

*Syeda Farwa Naqvi, University of Calgary, Canada

Analysis of HIV/AIDS health promotional coverage in canadian newspapers through the lens of disabled people

Dalhousie 17

Magalie Nelson-Personna, Plan International, Canada

analyse de la contribution des organisations communautaires de base (OCB) selon leur profil dans la lutte contre la tuberculose au Sénégal

Dalhousie 18

Adebowale Ojo, University of KwaZulu-Natal, South Africa

A content analysis of Twitter use by health ministries in sub-Saharan Africa

Dalhousie 19

*Charity Omenka, University of Montreal, Canada

What does qualitative research tell us about the facilitators and barriers to tuberculosis diagnosis and treatment in Nigeria?

Dalhousie 20

*Donya Razavi, McMaster University, Canada

Analysis of stakeholder participation in priority setting in three districts in Uganda: who is in and who is out?

Dalhousie 21

*Ashken Sanogo, Université d'Ottawa, Canada

Analyse de l'effet de l'assurance maladie obligatoire sur l'état de santé des populations vulnérables au Gabon
